HARMONIC OVERTONE SINGING WORKSHOP

9TH JULY SATURDAY

10AM - 5PM

30B NASSIM ROAD

What is Overtone Singing?

Harmonic overtone singing allows a single voice to produce two or more pitches simultaneously. The lowest pitch is the fundamental or ground pitch, from which corresponding overtones from the harmonic series are emphasized and controlled through a sequence of vowels and shaping of resonant cavities, especially involving manipulation of the tongue.

Using various techniques, one is able to sing contrapuntally with oneself, opening up new musical territory. There is no tension involved anywhere in the body while overtone singing. The singer is in a relaxed state, which ensures there is never any damage to the vocal cords.

In my experience, Overtone Singing shifts the vocalist and listener to a higher states of consciousness quickly. This unique technique of singing originated mainly from Tibet, Mongolia, Tuva, Japan (Hokkaido).

"The harmonic overtones sung transcend into higher and higher octaves as though bridging dimensions carrying the consciousness of the singer into listening the celestial sounds of universe..."

From this workshop, you will learn vocal positioning and techniques for producing overtones in various ways...discover the magic and beauty of listening to overtone sounds around you...

The Art and Way of living with Harmonic Sounds in your daily life...

Overtone Singing is perhaps one of the most forgotten yet powerful way of expressing one's consciousness in the world of sound...

SIMONE, LIGHTWORKS CENTER, MALAYSIA

Jiro's 'Power of Vocal Sound Healing' workshop was very comprehensive in its coverage, from the workings of sound up to the many uses of sound for healing and more. It helped to bridge my right & left-brains and thereby opening up a new dimension of sound and (heart) song through vocalizing into my reality. My being is still experiencing expansion as I write this, almost a week from attending your workshop. Thank you Jiro, for sharing your humble & passionate love of sound with others and me! Namaste!

KARI LESICK KELOWNA, B.C. CANADA (COORDINATOR FOR B.C. CANADA)

Jiro's "The Power of Vocal Sound Healing" was held August 2010 in Canada. The time spent with Jiro was profound and has altered how I move through the world!! I now have the resource of vocalization and vibration to connect into other frequencies and dimensions.

The theme I heard from all the participants was that this was the most "fun" they had ever experienced in a workshop setting. We had the gift of remembering how to play and laugh!! Jiro has the ability to open his heart, connect in with our inner playful child and facilitate the experience of connecting to source and in essence to self.
